**Summary of Qualifications:**

- Sincere desire to continue to work as a Project Manager as I have been trained to handle multiple projects and tasks at one time
- Ability to efficiently prioritize tasks and keep projects moving to meet deadlines
- Ability to work well in a team environment as evidenced by selection into the company's Committee for Change meetings
- Ability to learn new systems and policies quickly and willingness to continue learning
- Strong work ethic and ability to work hard
- Pleasant personality and positive mental attitude

**Education:**

**Bachelor of Science in Materials Engineering in May 2009**

Iowa State University, Ames, IA

**Professional Experience:**

**Zia Engineering & Environmental Consultants, Ames, IA**

**Staff Scientist**

**March 2012-Current**

- Preparation of engineering documents to obtain environmental permits
- Creating tracking system to maintain compliance with environmental regulations
- Research and proposal writing for various projects
- Performed quality control and quality assurance on all office documents
- Facilitate office cohesion

**Project Experience:**

**Steel Bin Manufacturer**

**March 2012 – December 2015**

- Maintained compliance with the facility's Title V permit through Annual and Semi-Annual Compliance Reports, Emission Inventory Reports, NESHAP MMMM Annual and Semi-Annual Compliance Reports, and permit renewal
- Assisted the facility with water quality compliance including wastewater monthly operating reports, wastewater monitoring frequency report, and storm water chemical analysis review
- Created tracking system to monitor Title V and NESHAP MMMM operating limit requirements

**Communication Tower Manufacturer**

**June 2012 – December 2015**

- Obtained multiple construction permits and thereafter, a Title V permit for the facility
- Wrote multiple environmental documents for the facility including Storm Water Pollution Prevention Plan, Spill Prevention Control and Countermeasure Plan, Hazardous Waste Management Plan, Materials Management Plan, and Facility Oversight Reports
- Completed other environmental tasks including Tier II reports, Toxic Release Inventory calculations, waste analysis, and carbon footprint calculations
