We have spent most of our adult lives living in Newton and decided it was time to make a change. We looked at moving to a number of different areas in the Des Moines Metro, but decided that Ankeny was the best fit for our family and business. In May we moved with our 2 children to Ankeny and in October we opened our 4th office in Central Iowa. Our office is attached to Mercy Prairie Trails Family Medicine which is located on Oralabor about 1 mile west of DMACC, 2605 SW White Birch, Ste. 110. It is a growing area and if you are in the neighborhood stop by and say hello.

We have a total of 8 attorneys in our 4 offices who handle personal injury, workers' compensation, criminal law, family law, real estate, social security disability along with wills and estate planning. Four of our attorneys practice injury and workers' compensation law while our other attorneys focus on specific areas as well. We offer Iowa legal books covering the above practice areas at no cost risk or obligation at [www.IowaLegalInsider.com](http://www.IowaLegalInsider.com) because we have seen too many clients make costly mistakes before they had the right information. For more information about our law firm go to [www.IowaInjured.com](http://www.IowaInjured.com) or [www.WalkLaw.com](http://www.WalkLaw.com).

Ankeny, IA 50023

[www.infinitycoworking.com](http://www.infinitycoworking.com)

Infinity Coworking is proud to offer flexible and affordable offices, workspaces, and conference room to work, think, and innovate. Infinity Coworking, located in Woodside Business Park, has several memberships to meet individual needs. Coworking provides a shared environment for professionals who are conducting independent activities. They would typically all represent different organizations. The model provides greater privacy than the typical coffee shop for conducting business. It offers a professional environment for members to conduct business. It also provides the atmosphere of a populated office environment and prevents the sense of isolation that can occur in the home office.

Coworking is a new and growing industry. In recent years, significant numbers of jobs have been eliminated as a result of a poor economy. Many of these displaced workers have turned to self-employment for their livelihood. There will be a continued trend in the marketplace for companies to use contract employees to meet their needs when possible, rather than hiring or rehiring permanent employees. Coworking provides a professional place for these people to work and entertain clients at an affordable cost. It also provides more affordable office space for traditional small business owners.
